## Steps:

### 1. Where Are You Going To Put Your Savings?

Determine which account you are going to put your savings into. You might already have this.

### 2. How Often You Get Paid (Weekly, Fortnightly, Monthly)

If it's weekly, use the chart on the next page (or create your own).

### 3. What's Your Money Goal?

Is it \$2,000? Another amount? Enter your money goal above.

### 4. Divide That Figure By How Often You Get Paid

So in this instance, you'd divide your money goal by 26 (for 26 weeks). Enter the weekly deposit amount above.

### 5. Track Your Savings and Create Accountability

Use a goal tracker app or the table on the next page. By tracking your savings you'll be creating accountability to reaching your goal.

### 6. What Are You Going To Do With The Money That You Save?

Is it for Christmas or another end of year goal? Knowing the 'why' is the biggest motivator to sticking with your savings.
